

BATCH RECORD		Lot Number:
Title:	ARCT-2601 Drug Product, (mRNA-1801-2)	Version No: 0.1
		Page 12 of 72

9. THAWING OF RNA AND CALCULATIONS

9.1. Thawing of RNA

Step	Instructions	Signature
9.1.1.	Transfer the RNA to 2-8 °C storage 12 – 24 hours prior to the LNP formulation.	Performed by/Date Reviewed by/Date
	mRNA-1801-2	
	Yes / No	
	mRNA-1801-2 Lot Number	
	Storage Location	
	Storage Temperature (2-8 °C)	
	Start Date and Time (HH:MM)	
	End Date and Time (HH:MM)	
	Storage hours at (2-8°C)	
	Storage time < 48 hours?	
	Yes / No	
	Is mRNA solution completely thawed? If yes, keep at 2-8°C until use. If no, store at ambient temperature (20-25°C) for additional thawing.	
	Yes / No	
9.1.2.	Additional thawing Start Date and time (DDMMYYYY, HH:MM)	
	Additional thawing Start Date and time (DDMMYYYY, HH:MM)	
	Total additional thawing time < 2 hours?	
	Additional Storage Temperature (15 – 25°C)	
9.1.2.	Transcribe the RNA concentration for the lot number used from the corresponding Certificate of Analysis.	
	RNA concentration (mg/mL)
